

This Is What My God Is Like

This is what my God is like
He's brighter than the brightest sun
Fiercer than the raging sea
Stronger than a mighty army
This is what my God is like
Gentler than a mother's kiss
Kinder than a doting dad
Wiser than the wisest sage

This is what my God is like
He's radiant with majesty
Slow to anger, full of grace
Father of a family
This is what my God is like
Pure and Holy hating sin
Jealous for his children's love
Patient with the prodigal

*I love Him and he loves me
I love Him and he loves me*

This is what my God is like
He speaks and stars are born in space
Worlds and galaxies burst forth
By the power of His words
This is what my God is like
He'd send His one and only son
And let him die in place of us
Saving millions for all time
